Jackson, Malcolm M.

[Boston, MA]

1913-1914

December 18th, 1913.

Mr. Malcolm M. Jackson,
97 Milk Street,
Boston, Mass.

My dear Mac:-

I do not know whether you have any United States coins now or not. As you may know, we are going to have a remarkable exhibition of United States issues beginning January 17th. I am enclosing a memorandum giving an outline of the exhibition, and if you think you have anything to be exhibited let me know. Also I was wondering whether Mr. Holden, whom I have heard you speak of, would have anything, and whether he would care to exhibit. I was thinking more especially of Colonials. If you think it would do any good to approach him, please let me know. Also give me his full name and address. All loans will have the best of care. The building is solid concrete and is virtually a vault. There are watchmen in attendance night and day, and all exhibits will be covered with insurance against theft, both in transportation and while here.

Let me know how you have been the past few months, and believe me,

Very truly,

April 16, 1914.

Malcolm M. Jackson
c/o Francis Henshaw & Co.
95 Milk Street,
Boston Mass.

My dear Mac:-

I have two bonds of the Flint Pier Marquette Railway , first morgage 6 % which did not pay their coupons on the first of April. I Have seen one or two notices in papers here about some association of the bond holders getting together and having these bonds deposited. What do yo think about this committee, and would you advise me to deposit my bond with them, or would you advise selling the bond? If so, do you know about what I c can get them. They are $1000 bonds.

I remain,

Very truly yours,
